Angela:

I was just told that (b) (6) sister-in-law passed away last night and he will be demobilizing from the site maybe today or tomorrow and then returning on Sunday. That is very sad news. I feel terrible about this but I have to ask the question on how you guys plan on dealing with this demobe/mobe. I do not think that this can be charged to the Government as it is not an official demobe/remobe. I do believe that he should get paid for his mileage but that ER should be reimbursing him for those costs rather than the Government. I just want to get ahead of this and get it resolved between our people so it does not become an issue.

Thanks
